

Allow old photographs a second life and consider restoration and / or colorizing. Thanks to our extensive experience with digital processing techniques, we can revitalize your damaged or discolored photo. Have a look at the example images and feel free to contact us. Of course we can also provide prints of each image on request.

Prices depend on the condition of the original photo. As indication:

**Retouching a photo worn by the passage of time: EUR 19.95**

**Retouching and reconstructing disappeared details from: EUR 45, -**

With the colorizing technique, black-and-white photographs come to life in a unique way. With the help of a drawing tablet every detail is colored as realistically as possible. This is done in close consultation to ensure a personal image that best matches your memory or expectations. All photos are scanned in high resolution, processed and delivered digitally; here too, various printing options are available.

Prices are calculated per worked hour and always in consultation with the client. As indication:

**Colorizing a portrait with a uniform background: EUR 125, -**

**Colorizing a group portrait or outdoor photo with several people from: EUR 150, -**

**View the before and after photos made for different projects and contact us for more information at [info@jeroenfortgens.nl](mailto:info@jeroenfortgens.nl) or use the contact form.**
